

THE ROAD AHEAD

From a private companion to carer infrastructure

How CARER grows from today's early access to the default, always-free wellbeing companion for unpaid carers — safely, and with evidence.

North star: retained relationships, not downloads — D90 retention + wellbeing signal.

GEOGRAPHY

Harden UK/US · build localisation framework

Evidence & Partnerships ~12–24 MO

Turn proof into partnerships.

PRODUCT

Content-free signal sync · API-based platform maturity

SAFETY & GOVERNANCE

DTAC readiness · NICE Evidence Standards Framework alignment

EVIDENCE

Real-world-evidence study — ideally with an academic partner

MARKET & PARTNERSHIPS

First ICB / local-authority + employer pilots

FUNDING

Seed round or major grant

GEOGRAPHY

Add 2–3 verified countries — crisis + localisation

3

Scale & Sustainability ~24–36 MO

Sustain the free core.

PRODUCT

Broaden condition-aware
signposting · partner-facing
platform APIs

SAFETY & GOVERNANCE

Full clinical-safety + governance
maturity

EVIDENCE

Published carer-wellbeing
evidence

MARKET & PARTNERSHIPS

Repeatable B2B2C across
ICBs/LAs, employers and
charities → recurring revenue

FUNDING

Partnership revenue → mission
break-even

GEOGRAPHY

Multi-country

VISION · 3-5 YEARS

The default private, always-free wellbeing
companion for unpaid carers worldwide

— and a consented, de-identified evidence base advancing the science of
carer wellbeing.

 *A little light, kept.*
